

Computing

Long-term plan

How does our computing scheme of work meet the statutory guidance for computing?

Our scheme of work fulfils the statutory requirements for computing outlined in the **National Curriculum (2014)** and, when used in conjunction with our RSE & PSHE scheme, also covers the government's **Education for a Connected World -2020 edition** framework (see our <u>Education for a Connected World framework mapping</u>).

© Crown copyright 2013

Our scheme of work fulfils the statutory requirements outlined in the **National Curriculum (2014)**. The National Curriculum Programme of Study for Computing aims to ensure that all pupils: We have identified these three strands which run throughout our scheme of work:

★ Can understand and apply the fundamental principles and concepts of computer science, including abstraction, logic, algorithms and data representation.

Can analyse problems in computational terms, and have repeated practical experience of writing computer programs in order to solve such problems.

Computer Science

 Can evaluate and apply information technology, including new or unfamiliar technologies, analytically to solve problems.

Information Technology

★ Are responsible, competent, confident and creative users of information and communication technology.

Digital Literacy

Our <u>Curriculum overview</u> document shows which of our units cover each of the National Curriculum attainment targets as well as each of the three strands. Each lesson plan references the relevant National Curriculum objectives, along with cross-curricular links to any other subjects.

How is the Computing scheme of work organised?

Key areas

We have categorised our lessons into the five key areas below, which we return to in each year group making it clear to see prior and future learning for your pupils and how what you are teaching fits into their wider learning journey.

Computing systems and networks	Programming	Creating media	Data handling	Online safety
Identifying hardware and using software, while exploring how computers communicate and connect to one another.	Understanding that a computer operates on algorithms, and learning how to write, adapt and debug code to instruct a computer to perform set tasks.	Learning how to use various devices — record, capture and edit content such as videos, music, pictures and photographs.	Ensuring that information is collected, recorded, stored, presented and analysed in a manner that is useful and can help to solve problems.	Understanding the benefits and risks of being online — how to remain safe, keep personal information secure and recognising when to seek help in difficult situations.

Skills showcase units

There are four units entitled Skills showcase. These units give children the chance to combine and apply skills and knowledge gained, from a range of the five key areas above, to produce a specific outcome.

A spiral curriculum

Our scheme of work has been designed as a spiral curriculum with the following key principles in mind:

- ✓ Cyclical: Pupils revisit the five key areas throughout KS1 and KS2.
- Increasing depth: Each time a key area is revisited, it is covered with greater complexity.
- Prior knowledge: Upon returning to each key area, prior knowledge is utilised so pupils can build on previous foundations, rather than starting again.

Within each unit, lessons must be taught in order as they build upon one another.

Across a single year group, units themselves do not need to be taught in the suggested order, with the exception of the numbered units which should be taught in the correct order (e.g. **Programming 1** before **Programming 2**).

What about online safety?

Recognising the increasing importance of this key area, we have created an Online safety unit for each year group.

Computing in EYFS

Our EYFS lessons are a natural precursor to our Year 1 Computing plans. They are designed especially for the Reception classroom and are play-based, hands-on and fun!

Please read the teacher guidance for:

Supporting a child-led project using technology

and

Computing through continuous provision

Whilst the technology strand is no longer a specific area in the new EYFS framework (2021), having the opportunity to develop computing skills at an early age can foster interest and confidence in technology and give pupils an advantage going into KS1.

Our EYFS units focus on the same key areas and link to Primary and Specific Areas of the EYFS framework 2021 and Development Matters Guidance as detailed on individual lesson plans and on our <u>Curriculum overview</u>.

Guidance: How to fit in our Online safety units

	Organisation			Considerations		
Option 1	Teach each of our units as shown on the suggested long-term plan. Hold an online safety day at some point during the year, where children are 'off-timetable' and cover the whole of the Online safety unit on this day. Many schools may choose to do this on Safer Internet Day which falls in February each year.			 Timetabling of con What will happen Will pupils retain 	mputing equipment on the o if a child is away on this day the online safety learning in	online safety day. ? their long-term memory?
Option 2	Teach each of our units as shown in the suggested Long term plan. As each half term is usually longer than the five weeks of lessons we have provided, you should have some 'spare' Computing lessons. Some or all of these could be used to teach one lesson from the Online safety unit.			 Depending on how lessons within a h You may need to b lesson (although t 	w the holidays fall, you may s alf-term and some half-term priefly recap learning from tl his is referred to in our plan	still have some 'spare' ns with too few lessons. he previous online safety ning)
	Autumn 1	Autumn 2	Spring 1	Spring 2	Summer 1	Summer 2
Year 1 Option 2 example:	Improving mouse skills +Online safety Lesson 1	Algorithms unplugged +Online safety Lesson 2	Rocket to the moon + Online safety Lesson 3	Programming Bee-bots Option 1: Bee-bots Option 2: Virtual Bee-bots + Online safety Lesson 4	<u>Digital imagery</u>	Introduction to data
Option 3	Teach the units in the order they are shown in our suggested long-term plan. When you have finished a unit move straight onto the next unit, rather than starting a new unit after each school holiday. The example below assumes six Computing lessons per term.			 Will children/ tead long half-term? Will this have imp How will this affect Will this make it n Computing? 	chers be too tired to start a lications for termly overview ct assessment data? nore difficult for the subject	new unit at the end of a ws sent home to parents? leader to monitor
	Autumn 1	Autumn 2	Spring 1	Spring 2	Summer 1	Summer 2
Year 1 Option 3 example:	Improving mouse skills (5 lessons) Algorithms unplugged (1 lesson)	Algorithms unplugged (4 lessons) Rocket to the moon (2 lessons)	Rocket to the moon (3 lessons) Programming Bee-Bots (3 lessons)	Programming Bee-Bots (2 lessons) Digital imagery (4 lessons)	Digital imagery (1 lesson) Introduction to data (5 lessons)	<u>Online safety Y1</u> (4 lessons)

Suggested long-term plan: Computing - Overview (EYFS and KS1)

Years 1-6 include an Online Safety unit each. See the: <u>Guidance: How to fit in our Online safety units</u> for information about how to include these in your curriculum time. All units have five lessons unless otherwise stated.

	Autumn 1	Autumn 2	Spring 1	Spring 2	Summer 1	Summer 2	Online Safety
	Set up continuous	Computing systems and networks	Programming 1	Computing systems and networks	Programming 2	Data handling	
EYFS	provision in your classroom: <u>Computing through</u> <u>continuous provision</u>	Using a computer Learning about the main parts of a computer and how to use the keyboard and mouse. Learning how to log in and out.	All about instructions The children learn to receive and give instructions and understand the importance of precise instructions.	Exploring hardware Tinkering and exploring with different computer hardware and learning to operate a camera.	Programming Bee-Bots Children learn about directions, experiment with programming a Bee-bot/Blue-bot and tinker with hardware.	Introduction to data Children sort and categorise data and are introduced to branching databases and pictograms.	
	Computing systems and networks	Programming 1	Skills showcase	Programming 2	Creating media	Data handling	Online safety
Year 1	Improving mouse skills	<u>Algorithms</u> <u>unplugged</u>	Rocket to the moon	Programming Bee-bots Option 1: Bee-Bots Option 2: Virtual Bee-bots	Digital imagery Option 1: Google Option 2: Microsoft Office 365	Introduction to data	<u>Online safety Y1</u> (4 lessons)
	Computing systems and networks 1	Programming 1	Computing systems and networks 2	Programming 2	Creating media	Data handling	Online safety
Year 2	What is a computer?	<u>Algorithms and</u> <u>debugging</u>	Word processing Option 1: Google Option 2: Microsoft Office 365	<u>Programming:</u> <u>ScratchJr</u>	Stop Motion Option 1: Using tablet devices Option 2: Using cameras Option 3: Devices without cameras	International Space Station	<u>Online safety Y2</u>

Suggested long-term plan: Computing - Overview (Lower and upper KS2)

Years 1-6 include an Online Safety unit each. See the: <u>Guidance: How to fit in our Online safety units</u> for information about how to include these in your curriculum time. All units have five lessons unless otherwise stated.

	Autumn 1	Autumn 2	Spring 1	Spring 2	Summer 1	Summer 2	Online Safety
	Computing systems and networks 1	Programming	Computing systems and networks 2	Computing systems and networks 3	Creating media	Data handling	Online safety
Year 3	Networks and the internet Option 1: Google) Option 2: Microsoft Office 365	<u>Programming:</u> <u>Scratch</u>	Emailing Option 1: Google Option 2: Microsoft Office 365	<u>Journey inside a</u> <u>computer</u>	Video trailers Option 1: Using devices other than iPads., Option 2: Using iPads	Comparison cards databases <u>Option 1: Google</u> <u>Option 2: Microsoft</u> <u>Office 365</u>	<u>Online safety Y3</u> (4 lessons)
	Computing systems and networks	Programming 1	Creating media	Skills showcase	Programming 2	Data handling	Online safety
Year 4	Collaborative Learning <u>Option 1: Google</u> <u>Option 2: Microsoft</u> <u>Office 365</u>	Further coding with Scratch <u>Option 1: Google</u> <u>Option 2: Microsoft</u> <u>Office 365</u>	Website design Option 1: Google Option 2: Microsoft Office 365	HTML	<u>Computational</u> <u>thinking</u>	Investigating weather Option 1: Google Option 2: Microsoft Office 365	<u>Online safety Y4</u> (6 lessons)
	Computing systems and networks	Programming 1	Data handling	Programming 2	Creating media	Skills showcase	Online safety
Year 5	Search engines Option 1: Google Option 2: Microsoft Office 365	Programming music Option 1: Sonic Pi, Option 2: Scratch	<u>Mars Rover 1</u>	<u>Micro:bit</u>	Stop motion animation <u>Option 1: Stop</u> <u>motion studio</u> <u>Option 2: Using</u> <u>cameras</u>	<u>Mars Rover 2</u>	<u>Online safety Y5</u>
	Computing systems and networks	Programming	Data handling	Creating media	Data handling	Skills showcase	Online safety
Year 6	Bletchley Park Option 1: Google Option 2: Microsoft Office 365	Intro to Python	<u>Big data 1</u>	History of computers Option 1: Google Option 2: Microsoft Office 365	<u>Big data 2</u>	Inventing a product Option 1: Google Option 2: Microsoft Office 365	<u>Online safety Y6</u> (6 lessons)

Suggested long-term plan: Computing - Outline (KS1)

	Year 1	Year 2
	Computing systems and networks	Computing systems and networks
Autumn 1	Improving mouse skills (5 lessons) Learning how to login and navigate around a computer; developing mouse skills; learning how to drag, drop, click and control a cursor to create works of art	What is a computer? (5 lessons) Exploring what a computer is by identifying how inputs and outputs work and how computers are used in the wider world to design their own computerised invention.
	Programming 1	Programming 1
Autumn 2	Algorithms unplugged (5 lessons) Algorithms, decomposition and debugging are made relatable to familiar contexts, following directions, learning why instructions need to be specific.	Algorithms and debugging (5 lessons) Developing an understanding of; what algorithms are, how to program them and how they can be developed to be more efficient, introduction of loops.
	Skills showcase	Computing systems and networks
Spring 1	Rocket to the moon (5 lessons) Developing keyboard and mouse skills through designing, building and testing. Creating a digital list of materials, using drawing software and recording data.	Word processing (5 lessons) (Option 1: Google) (Option 2: Microsoft Office 365) Developing touch typing skills, learning keyboard shortcuts and simple editing tools.
Spring 2	Programming 2	Programming 2
	Programming Bee-Bots (5 lessons) (Option 1: Bee-Bot) (Option 2: Virtual Bee-Bot) Introducing programming through the use of a Bee-Bot and exploring its functions.	<u>ScratchJr</u> (5 lessons) Exploring what 'blocks' do' by carrying out an informative cycle of predict > test > review. Programming a familiar story and make a musical instrument.
	Creating media	Creating media
Summer 1	Digital imagery (5 lessons) (Option 1: Google) (Option 2: Microsoft Office 365) Taking and editing photos, searching for and adding images to a project.	Stop Motion (5 lessons) (Option 1: Using tablet devices) , (Option 2: Devices with cameras) or (Option 3: Devices without cameras) Learning how to create simple animations from storyboarding creative ideas.
	Data handling	Data handling
Summer 2	Introduction to data (5 lessons) Learning what data is and the different ways it can be represented. Learning why data is useful and the ways it can be gathered and recorded.	International Space Station (5 lessons) Learning how data is collected, used and displayed and the scientific learning of the conditions needed for plants and humans, to survive.
	Online safety	Online safety
Online safety	Online safety Y1 (4 lessons) Learning how to stay safe online and how to manage feelings and emotions when someone or something has upset us.	Online safety Y2 (5 lessons) Learning: how to keep information safe and private online; who we should ask before sharing things online and how to give, or deny permission online.

Suggested long-term plan: Computing - Outline (Lower KS2)

	Year 3	Year 4
	Computing systems and networks	Computing systems and networks
Autumn 1	Networks and the internet ((5 lessons) (Option 1:Google) (Option 2: Microsoft Office 365) Learning what a network and how devices communicate and share information.	Collaborative learning (5 lessons) (Option 1: Google) (Option 2: Microsoft Office) Learning how to work collaboratively and exploring a range of collaborative tools.
	Programming	Programming 1
Autumn 2	<u>Scratch</u> (5 lessons) Exploring the programme Scratch, following the predict > test > review cycle. Learning about 'loops' and programming an animation, story and game.	Further coding with Scratch (5 lessons) (Option 1: Google) (Option 2: Microsoft Office 365) Revisiting the key features and beginning to use 'variables' in code scripts.
	Computing systems and networks	Creating media
Spring 1	Emailing (5 lessons) (Option 1: Google) (Option 2: Microsoft Office 365) Sending emails with attachments and lunderstanding what cyberbullying is.	Website design (5 lessons) (Option 1: Google) (Option 2: Microsoft Office 365) Learning how web pages and sites are created and how to embed media and links.
	Computing systems and networks	Skills showcase
Spring 2	Journey inside a computer (5 lessons) Assuming the role of computer parts and creating paper versions of computers to consolidate understanding of how a computer works.	HTML (5 lessons) Learning about the markup language behind a webpage; becoming familiar with HTML tags, changing HTML and CSS code to alter images and 'remix' a live website.
	Creating media	Programming 2
Summer 1	Video trailers (5 lessons) (Option 1: Using devices other than iPads) (Option 2: Using iPads) Developing digital video skills to create trailers, with special effects and transitions.	<u>Computational thinking</u> (5 lessons) Solving problems effectively using the four areas of abstraction, algorithm design, decomposition and pattern recognition.
	Data handling	Data handling
Summer 2	Comparison cards databases (5 lessons) (Option 1: Google) (Option 2: Microsoft Office 365) Learning about records, fields and data and sorting and filtering data.	Investigating weather (5 lessons) (Option 1: Google) (Option 2: Microsoft Office 365) Researching and storing data on spreadsheets and designing a weather station.
	Online safety	Online safety
Online safety	Online safety Y3 (4 lessons) Learning: the difference between fact, opinion and belief; and how to deal with upsetting online content. Knowing how to protect personal information online.	Online safety Y4 (6 lessons) Searching for information and making a judgement about the probable accuracy; recognising adverts and pop-ups; understanding that technology can be distracting.

Suggested long-term plan: Computing - Outline (Upper KS2)

	Year 5	Year 6
	Computing systems and networks	Computing systems and networks
Autumn 1	Search engines (5 lessons) (Option 1: Google) (Option 2: Microsoft Office 365) Learning about how page rank works and how to identify inaccurate information.	Bletchley Park (5 lessons) (Option 1: Google) (Option 2: microsoft Office 365) Discovering the history of Bletchley and learning about code breaking and password hacking. Demonstrating digital literacy skills by creating presentations.
	Programming 1	Programming
Autumn 2	Programming music (5 lessons) (Option 1: Sonic Pi) (Option 2: Scratch) Building-on programming and music skills to create different sounds, beats and melodies which are put to the test with a Battle of the Bands performance!	Intro to Python (5 lessons) Using the programming language 'Python' to create designs and art. Learning how to create loops and nested loops to make their code more efficient.
	Data handling	Data handling
Spring 1	Mars Rover 1 (5 lessons) Learning about the Mars Rover, exploring how and why it transfers data including instructions, and how messages can be sent using binary code.	Big data 1 (5 lessons) Identifying how barcodes and QR codes work. Learning how infrared waves are used for the transmission of data while recognising the uses of RFID.
	Programming 2	Creating media
Spring 2	Micro:bit (5 lessons) Creating algorithms and programs that are used in the real world. Using the 'predict, test and evaluate' cycle to create and debug programs with specific aims.	History of computers (5 lessons) (Option 1: Google) (Option 2: Microsoft Office) Writing, recording and editing radio plays set during WWII, learning about how computers have evolved.
	Creating media	Data handling
Summer 1	Stop motion animation (5 lessons) (Option 1: Stop Motion Studio) (Option 2: with cameras) Creating animations, storyboard ideas and decomposing a story into small parts before putting together to create the illusion of a moving image.	Big data 2 (5 lessons) Further developing understanding of how networks and the Internet are able to share information. Learning how big data can be used to design smart buildings.
	Skills showcase	Skills showcase
Summer 2	Mars Rover 2 (5 lessons) Exploring how the Mars rover: moves, follows instructions, collects and sends data; understanding how computers work, what data is and how it is transferred.	Inventing a product (Option 1: Google) (Option 2: Microsoft Office 365) (5 lessons) Designing a product, pupils: evaluate, adapt and debug code to make it suitable for their needs and designing products in CAD and creating a website and video.
	Online safety	Online safety
Online safety	<u>Online safety Y5</u> (5 lessons) Learning about app permissions; the positive and negative aspects of online communication; that online information is not always factual; how to deal with online bullying and managing our health and wellbeing.	Online safety Y6 (6 lessons) Learning to deal with issues online; about the impact and consequences of sharing information online; how to develop a positive online reputation; combating and dealing with online bullying and protective passwords.

Suggested long-term plan: Computing - Outline (Upper KS2)

	Year 5	Year 6
