Head Teacher Message

Dear Parents and Carers,

Over the summer holidays, libraries in Waltham Forest will give children the opportunity to sign up for the summer reading programme. Have a look on the libraries.walthamforest.gov.uk/ website to read all about the summer reading programme and how children can get involved.

Changes to Inset Days

As you are now aware, we have moved two of our inset days to the beginning of the academic year. We have vital training that needs to take place by an outside provider the only day available was 7th September. This means that school will begin on the 8th September. I must apologise for the inconvenience this may cause some families. The benefit is that it now means we will only have one more Inset day in the summer term.

Mayville's Got Talent

We are looking forward to welcoming all of our families to 'Mayville's Got Talent' on 12th July at 3.30pm. There is a buzz in school and children are excited to take part. The children have been through the beginning rounds and semifinals, so only the most 'talented' have reached the finals.

They are excited to show case their talents and I know you will be happy to see your child as well as others perform on the day.

Thanks again to the PTA who will be selling food and drinks on the day to support the event. There will be no summer fair this year, so we would like to make this event a big success.

A massive thank you to all of our staff for attending and making the Norfolk trip extra special.

Year 2 Summer Newsletter

With just a few weeks to go before the end of the school year, the Year two children have had an amazing time and are still eager to learn, and produced some fantastic work. Have a look below.

In English, we were tasked with writing a non-chronological report about the woodlands. We have looked at how the habitat provides for the wildlife that live there. We also looked at certain animals that live in the woodland: Badgers and hedgehogs.

We also used our computing skills that we had learned from the beginning of the year to do some research on the animals we were going to write about in our report.

For Mathematics, we looked at space, shape and measure: more specifically with direction. We had a go at following instructions to do with moving objects on a grid and by ordering cubes. We also practised how to turn shapes in the correct direction (clockwise/anti-clockwise) and by the correct amount (quarter, three-quarter, etc.).

In Design technology, we dived into the world of food tech. Our final task was to make a pizza. We first looked at the differences between fruits and vegetables. Next, we designed what our pizza could have. Afterwards, we had the opportunity to select our ingredients for our pizza before finally creating our masterpiece.
